My Rx

* Indicates Required Field

Prescriptions Written

From* To*

DEA Numbers

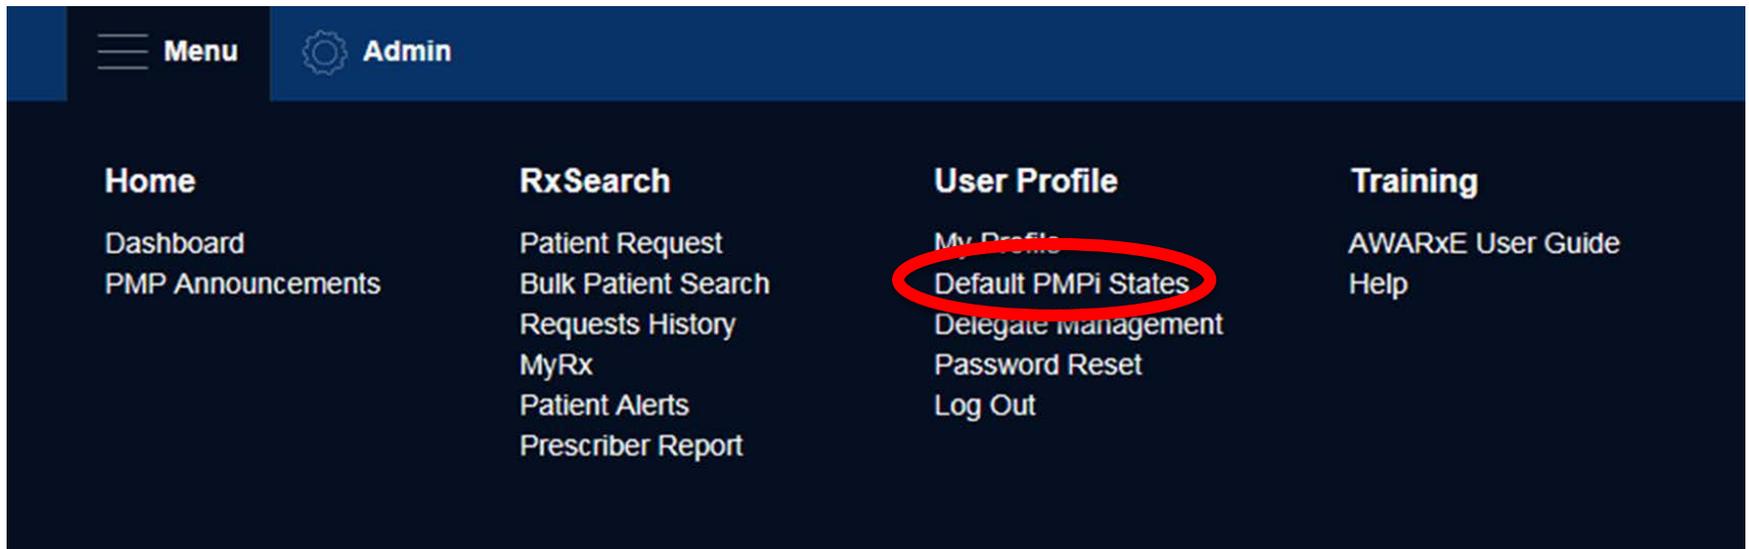

AD1111119
 JC1111119

Generic Drug Name (Optional)

Drug Name

1. Enter the chosen date range for the search.
2. Click the DEA number(s) you want to run a report on.
3. Enter a generic drug name if needed. Click Search.
4. The system will display a report of prescriptions written by the prescriber within the requested date range. The report is available for export via .pdf or .csv if configured by the State Administrator.

Setting Default PMPi States

The image shows a dark blue navigation menu for a web application. At the top left, there is a 'Menu' button with a hamburger icon and an 'Admin' button with a gear icon. The menu is organized into four columns: Home, RxSearch, User Profile, and Training. The 'User Profile' column contains a list of items, with 'Default PMPi States' circled in red. The 'Home' column includes 'Dashboard' and 'PMP Announcements'. The 'RxSearch' column includes 'Patient Request', 'Bulk Patient Search', 'Requests History', 'MyRx', 'Patient Alerts', and 'Prescriber Report'. The 'User Profile' column includes 'My Profile', 'Default PMPi States', 'Delegate management', 'Password Reset', and 'Log Out'. The 'Training' column includes 'AWARxE User Guide' and 'Help'.
